

Product Guide

**PARKY
SUPPLIES**

The Manufacturer :

Uniquip Electrical Supplies is a leading Specialist Manufacturer of High Quality Electrical Switchgear and Circuit Protection products.

All electrical suppliers know that the market is constantly changing and profit margins are forever being squeezed. The need for imported electrical switchgear is becoming more and more necessary to remain competitive and maintain profitability within a multitude of markets.

That's where Uniquip Electrical Supplies come to the fore. We give our customers the confidence to either import OEM branded or purchase our own brand direct, without compromising on inferior quality product, with the knowledge and certainty regarding local or international approvals and certification.

In today's day and age, it is increasingly difficult to connect to the right factories within China that will deliver high quality COMPLIANT products, with every shipment. Uniquip removes the stress and worry from your sourcing requirements and only deals with the best.

We handle everything from your initial enquiry to delivery, including product and packaging design; Local Australian and international standard certification and testing reports; and shipping, if required. Uniquip is continually striving for the highest quality products, working with our overseas suppliers to refine

and streamline our quality procedures. We are in touch on a daily basis with the factories and personally meet with them on a regular basis to discuss any issues, how we can improve and any other ideas to improve the product and product range that Uniquip delivers to the market.

Our experienced and service conscious staff offer the flexibility to provide high quality products with low lead times and are able to provide the service of manufacturing specialty electrical products on request. We understand what our customers want and we will go out of our way to make it happen.

Please take the time to view our offering (but not limited to) on the following pages. I look forward to being of service to you and your company soon.

Domestic Switchgear

Domestic Switchgear

Due to industry demand, Uniquip Electrical Supplies Switchgear has introduced a premium range of switches and socket outlets. Designed with smooth lines and a 5 year In-house Warranty to provide years of trouble free performance.

Our products are manufactured with robust internal metal components and high grade polycarbonate material to ensure that the product exceeds performance expectations in a wide variety of applications.

Switch mechanisms are a composite silver nickel material and operation is positive and smooth. Rear terminal connections allow for multiple spliced wiring and all terminal screws are solid brass.

The Uniquip Electrical Supplies Switchgear comes with a 5 year In-house Warranty, meaning you have peace of mind knowing that if a fault develops within a 5 year period, Uniquip Electrical Supplies will cover the cost of replacing the product and its installation.

Approvals

SAA Approved

Technical Parameters

Rated Voltage: 240V AC / 10A & AC / 15A

Rated Frequency 50Hz

Complies with AS/NZ 3112:2011 & AS/NZ 3100:2009

FEATURES

13mm Thick

Flame Retardant & UV Stable

Superior Grade Polycarbonate

Solida Brass Terminal Screws to Prevent Corrosion

Brushed Aluminium Cover Plates Available

Available in White & Black

Robust Composite Silver Switch Contacts

Superior Copper-Phosphor Bronze Metal Components

SOCKET OUTLETS
